

THE DEVIATORS

Stage Layout and Preferred Setup for Performance

Position	Musician/ Equipment	Details
Centre Stage Back	Drums/Vox - Andy	• 5-piece drum kit with stool, placed mid-stage and slightly towards the back for visibility and sound balance. • Vocal mic with boom stand • Sennheiser in-ear monitoring system (E300 IEM)
Front Stage Centre Left	Guitar/Vox - Bitzy	• Laney 60-Watt Guitar Amp • Pedal Tuner, Boss Distortion Pedal • In-ear Monitor System • Wireless guitar lead system • Vocal Mic with Straight Stand • 2 guitar stands
Front Stage Centre Right	Bass/Vox - Bren	• TC Electronic BH250 Bass Amp (DI to PA) • TC Electronic BC280 200-watt Bass Cab • Tuner Footswitch and Effects Pedal • Soundbrenner Wave IEM and Anleon S Plus Wireless monitor system • Boss WL20L Wireless Guitar Lead system • Vocal mic with boom stand coming from Bren's right-hand side • 2 Guitar Stands

Layout to ensure each musician has clear sightlines and space for their equipment, with the drummer anchoring the rhythm centrally and the guitar and

bass flanking either side. Monitors should be placed at each position (as contingency for IEMS failure). Lighting to be focused on each member, with additional emphasis on lead vocals. The Deviators use a backdrop.
